

eSolutions for Calyx Point Users

Point Rate Tables for Good Faith Estimates (GFEs)

With the new 2010 HUD laws on Good Faith Estimates (GFEs) in effect, having access to the latest title and escrow rates is more important than ever. With that in mind, Lawyers Title offers title and escrow rates in electronic formats that can be imported directly into the Calyx Point loan origination system. This lets Point users easily estimate title and escrow costs without leaving their Calyx Point program for information. To download the latest rate tables for your state, please visit the Rate Tables for Point page at the Lawyers Title eSolutions website.

Catalyst for Point

Catalyst is an online ordering solution offered by Lawyers Title which minimizes data entry by exporting order details from the Calyx Point loan origination system directly into the Catalyst system. This fast, secure process also instantly e-mails all parties to the transaction and provides online reports of all orders placed, too. For more information, please visit the Catalyst page at the Lawyers Title eSolutions website.
